Automatic Machines for Dispensing Labels, Nameplates, Masks and Tape • Est. 1914

TELEPHONE EDgewood 2-8100 • TELETYPE: 414-964-4814

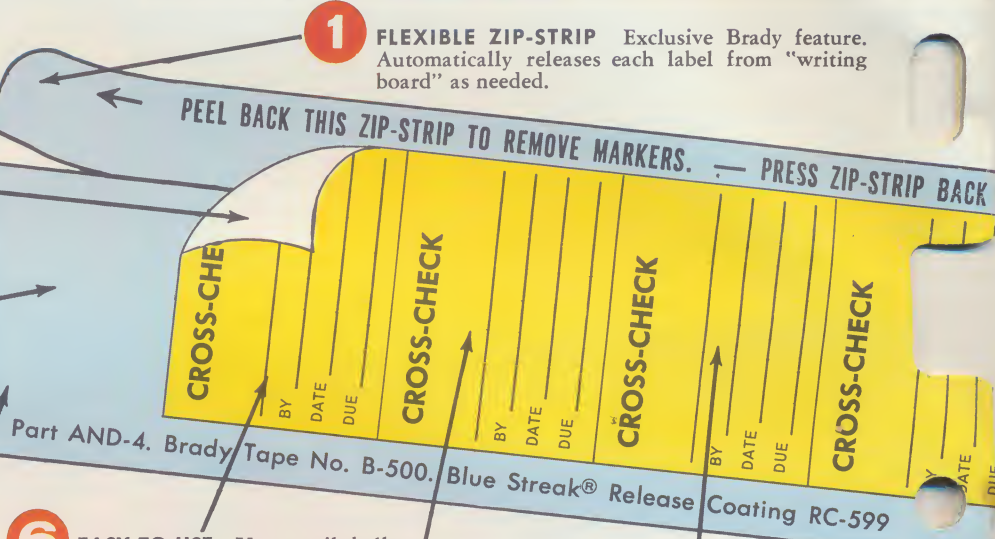

Exclusive Brady Features

2 SELF-STICKING Heavy-duty industrial grade adhesives stick to any clean, dry surface — wood, metals, glass, plastics, porcelain, cloth. Written data becomes part of the equipment or assembly . . . cannot become lost, misplaced, misunderstood.

3 BLUE STREAK® RELEASE COATING Lets you peel each label from "writing board" without effort — *without distortion*. Brady adhesive-compatible release coatings guarantee maximum adhesion.

4 ROUNDED CORNERS Make portable "writing boards" easier to handle. Slip in and out of pockets for Inspectors' on-the-spot use.

5 PORTABLE "WRITING-BOARD" Blue Streak® Dispenser Card is a firm portable "Writing Board" . . . ten mil thickness provides rigid surface for Write-On use, yet sufficiently flexible for rolling in-and-out of typewriters.

1 FLEXIBLE ZIP-STRIP Exclusive Brady feature. Automatically releases each label from "writing board" as needed.

6 EASY TO USE Use pencil, ball-point pen, typewriter, rubber stamp or metal punch. Write-On labels accept *all* methods.

7 COLOR COMBINATIONS Available in printing colors, background colors to meet your specification. See page 27 and 28 for complete information.

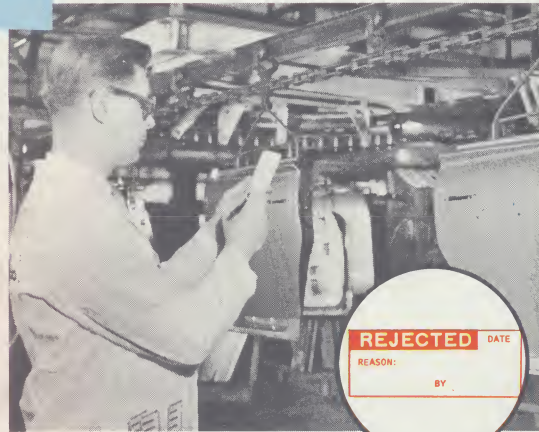

8 STOCK MATERIALS Three different materials meet individual requirements — No. B-500 Vinyl-Cloth, No. B-184 Aluminum Foil, No. B-770 Paper all specially treated for writing, typing and stamping.

WHERE TO USE.

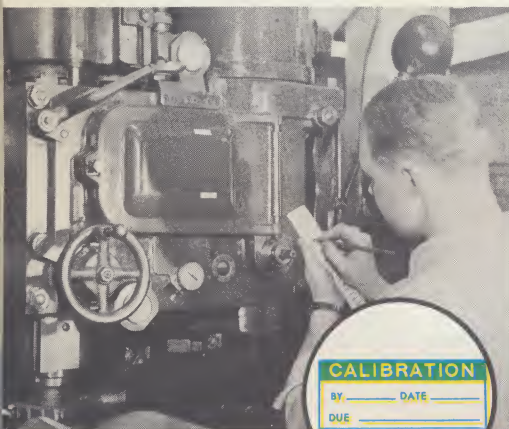

PRODUCTION Model numbers, serial numbers, calibration and test data are applied at production line speed using Brady Pressure-Sensitive Write-On Labels.

INSPECTION On-the-line inspection during assembly helps eliminate rejects of completed products. Brady Write-On's tag rejects quickly and accurately, speed rework operations.

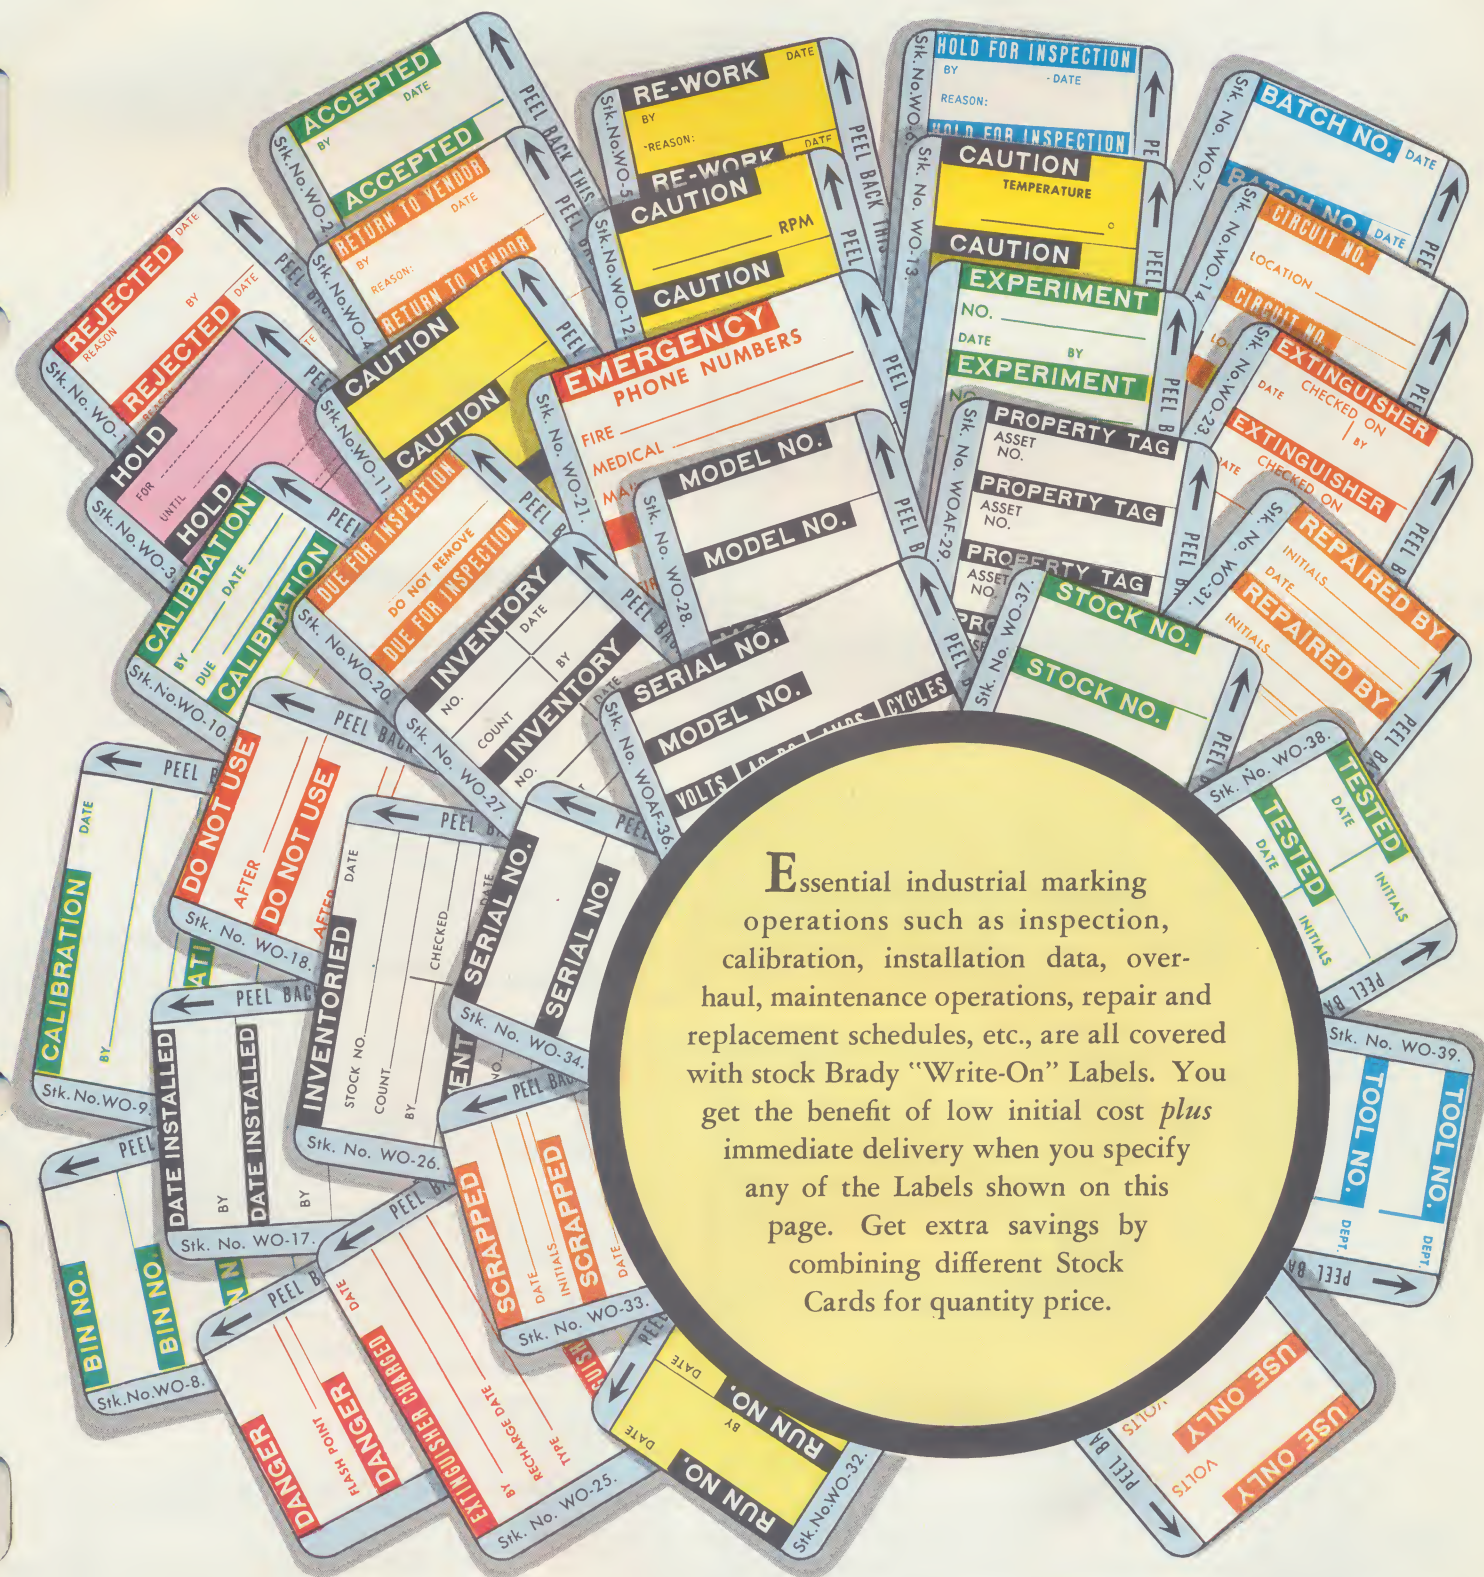

MAINTENANCE Crews reduce "down time" . . . keep machines and instruments "on-the-job." Write-On Labels put calibration, inspection due, overhaul dates and other vital maintenance information where it's needed — at the job-site.

SHIPPING Write-On Labels help move shipments faster — without bottle necks. Color-and-wording codes printed on label tell personnel general destination for shipments . . . carrier's name, other data are written in below.

Available from Stock for IMMEDIATE DELIVERY

Essential industrial marking operations such as inspection, calibration, installation data, overhaul, maintenance operations, repair and replacement schedules, etc., are all covered with stock Brady "Write-On" Labels. You get the benefit of low initial cost *plus* immediate delivery when you specify any of the Labels shown on this page. Get extra savings by combining different Stock Cards for quantity price.

See Page A-27 for complete list of Stock Cards. Prices on Page A-28.

BRADY
Write-On LABEL
CUSTOMER FILE

The Labels and applications described on these pages are actual "case histories" taken from Brady's Customer Files containing thousands of different industrial applications of Write-On Label use and performance. We will gladly send you our recommendations and sketches of suggested Labels to meet *your* individual requirements.

Brady Stock No. WO-1. Tape No. B-500*. Blue

FILE NO. 431

MATERIAL: Vinyl-Cloth (B-500).
SIZE: 5/8" x 1 1/2" — Fourteen Stock Write-On Labels per 2" x 9" Blue Streak® Dispenser Card.
USE: Inspection.
REMARKS: Adhesive resists migration of plasticizer in plastic distributor cap. Quickly, easily applied and removed. Adhesive will not mar or damage highly polished cap surface.

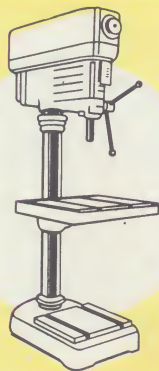

← PEEL BACK THIS ZIP-STRIP TO REMOVE MARKERS.

Brady Tape No. B-184.

FILE NO. 67

MATERIAL: Aluminum Foil (B-184).
SIZE: 1/2" x 3/4" — Thirty-Six Special Write-On Labels per 2" x 9" Blue Streak® Dispenser Card.
USE: Identify test samples.
REMARKS: Manufacturer requires positive identification of test sample parts and materials. *Identifying codes and test results are embedded* into aluminum foil. Labels stick at high temperature and resist sudden temperature changes.

LINER
MOUNTED
Write-On
LABELS

Brady "Write-On" labels larger than 5" x 9" and intricate die-cut shapes are furnished to order on Blue Streak® Release Liners. Handy Zip-Tab makes Liner easy to remove — *without label distortion*. Ideal for use in typewriters, Liner-Mounted "Write-On" Labels are used for listing complete shipping instructions, writing repair orders, marking detailed inspection reports, etc. Quotations and samples on request.

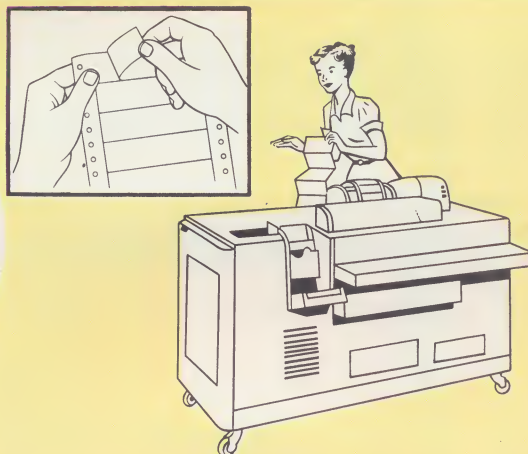

STAMPING
ACCESSORIES

You can order stamping accessories directly from Brady. Pads are 2 3/4" x 4 1/4" and 3 1/4" x 6 1/4" in size, with porous foam rubber pads. Gray enamel metal case. Stamp pads are shipped dry (not inked). Brady QUIK-DRI inks are available for rubber stamping on B-500 Vinyl-Cloth, B-330 All Vinyl, B-770 Paper and B-12 Acetate Cloth. All inks are furnished in six oz. polyethylene containers with screw top, non-leak covers.

See Pages A-27 and A-28 for stock numbers and prices.

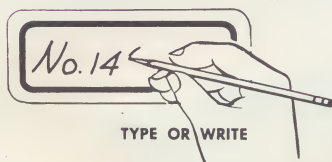

TABULATING
MACHINE
LABELS

For use with all standard tabulating equipment. Furnished in rolls. Holes precisely spaced for automatic feeding. Part numbers are reproduced legibly and quickly *without error* . . . for identification, bin marking, inventory control, order and invoice riders. Available in Vinyl-Cloth (B-500) and Paper (B-770). Two stock sizes (1" x 5 1/2" and 1" x 3 1/2") to meet your individual needs.

Write for Brady Bulletin No. 547.

OTHER
BRADY
PRODUCTS

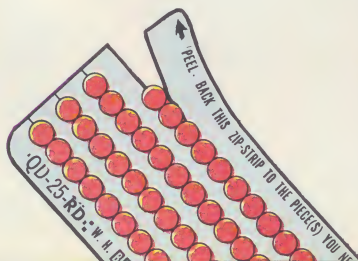

PERMA-SHIELD (TM) LABELS Give you custom-made labels, permanently protected against smudging, scuffing, weather, oil and chemicals by a clear, pressure-sensitive Mylar* cover. Easy-to-use Perma-Shield Labels come in continuous perforated form ready to slip into a typewriter. The Mylar cover rides "piggy-back" on the back of the label liner. Individual label-shield sets are easily separated for fast permanent application. Can be typed, printed or written on with pencil, pen or ballpoint.

Write for information on stock and special sizes, shapes, colors, and prices, listed in Brady Bulletin 531.

*Du Pont's registered trade mark.

QUIK-DOTS Self-sticking, all-vinyl QUIK-DOTS for visual coding-by-color in production, inspection, stock room, office. Stocked in 12 different colors — 136 dots per Blue Streak® Dispenser Card. Apply either directly to the part to be marked or to Write-On Labels to color-signal action required.

Get complete details and ordering information. Write for Brady Bulletin No. 524.

STOCK LIST

How to Choose the Right Self-Sticking Write-On Material

B-500 VINYL CLOTH

Best all-around material. Ideal for rough surfaces (such as castings, wrinkled or hammered finished), and compound-curved surfaces. Excellent conformability.

B-184 ALUMINUM FOIL

For applications where debossed marking is desired. Excellent results when marking is typed on labels, and where marking must be completely alter-proof. Resists very high temperatures.

B-770 PAPER

Recommended for very smooth, flat surfaces. Excellent write-on surface. Permanent adhesive . . . labels cannot be removed once applied.

HOW TO ORDER SPECIALS

You can order Brady "Write-On" Labels made to your size, color, shape and copy specifications. Labels can combine written instructions with color and shape to meet whatever color-code you desire. Write for details and prices. Please give complete size, color and material specifications, along with a rough sketch, in your initial request for quotation.

TO ACCURATELY QUOTE, WE NEED:

ROUGH SKETCH
Show position of wording, approximate size of wording and amount of blank write-on space needed.

DIMENSIONS
Give exact length and width of label.

COPY
Supply exact wording(s) to appear on labels in type-written form

QUANTITY
Give initial quantity needed plus estimated reorder quantities.

PRICES FOR STOCK AND SPECIAL CARDS
